TROY

TROY® steps into this New Year with our continued commitment to innovation and unquestionable performance. TROY weapons, upgrades, and accessories are combat-proven, BattleReady™ and stand up to the challenges of an increasingly uncertain world: whatever and wherever those challenges present.

TROY proudly provides weapon systems for Law Enforcement, Special Operations Forces, and Contractors on the frontlines of defending our Homeland. We supply small arms components and weapons to our NATO allies engaged in the Global War on Terror. All TROY products are designed with these heroes in mind, and we are honored to provide them and all our customers with superior products designed for flawless reliability.

When lives hang in the balance, when the challenge is great, there is only one name to remember: **TROY.**

TROY RESPONDER

MAKE NO MISTAKE
I WILL DEFEND MY BROTHERS AND SISTERS
I WILL DEFEND THE WEAK
I WILL DEFEND OUR WAY OF LIFE
I WILL SACRIFICE SO THAT OTHERS MAY LIVE
I AM A CITIZEN. I AM AMERICAN.
I AM A SHEEPDOG

Troy M7 Quick-Attach Suppressor Page 16

TROY RESPONDER PURPOSE-BUILT FOR LAW ENFORCEMENT, MILITARY AND AGENCY FIRST RESPONDERS

Incomparable. The TROY Responder is the ultimate, turnkey weapon system for those first on scene. 26.75" collapsed and shorter than a standard issue M4, this ultra-lightweight and compact solution for rapid deployment features a 12.3" barrel with 10" TROY Revolution M-LOK™ BattleRail® and the all-new TROY Tomahawk™ stock (Patent Pending). The intuitive, snag-free design is ideally suited for motor patrol; it is highly reliable and rugged with match grade accuracy.

This all-inclusive package provides best in class upgrades - TROY Tritium Front and Standard Rear Folding BattleSights™, TROY Aimpoint® mount, Aimpoint Micro T2, InForce® WMLx 500 lumen light, VTAC® sling adapter, and Proctor two point sling.

NEW TROY TOMAHAWK™ STOCK
Integrated Cheek Support, 5 Position Adjustable,
Designed for Mil-Spec Bolt Carrier Group.
(PATENT PENDING)

\$999	\$1,649 / \$1,799	\$1,649 / \$1,799	\$1,649 / \$1,799	

The TROY M7A1 PDW is a powerful, compact solution for close quarters battle replacing 5.56mm carbines and the 9mm submachine gun. Utilizing a patented, proprietary bolt / buffer system with heavy duty spring and latch assembly, the refined stock makes the TROY PDW rugged, reliable and highly concealable.

Measuring 3" shorter than standard M4-style stocks, the TROY M7A1 PDW is ideal for cross-body wear or carry in a backpack or case. TROY's six-position retractable PDW stock with built-in sling mounts, along with the short-barreled design, make for easy entry and exit from a vehicle and is the perfect choice for duty use and personal security professionals.

Every aspect of the TROY M7A1 was built from years of experience working with military and law enforcement agencies around the world. The result of our efforts: a Tier 1 weapon in PDW, CQB and carbine lengths unmatched in features or value. Available in Black and Tan. US PATENT Number: US 9,121,663 B2

NEW PRODUCT
GAU-5/A/A ▶
 LIMITED EDITION REPLICA

The **GAU-5/A/A** is the United States Air Force version of the XM117E2 Commando Carbine. This firearm historically replicates the weapon used by The Son Tay Raiders in the largest rescue attempt of American POWs. 45 of the 56 Special Forces troopers were equipped with the GAU during the night raid on the Son Tay prison camp. The GAU-5/A/A was highly desired by Commando Forces for its compact size, fire power, high reliability and reduced signature.

In partnership with The National League of POW/MIA Families, we offer this limited edition, historically accurate GAU-5/A/A with modern manufacturing excellence. Portions of the proceeds will go directly to support their sole purpose: "to obtain the release of all prisoners, the fullest possible accounting for the missing and repatriation of all recoverable remains of those who died serving our nation during Vietnam."

Availability of this collector's item is limited, order yours today.

AMERICAN GUNFIGHTER PROGRAM

M5 9MM RIFLE

M5 Carbine
SCAR-M51-49BT-00 BLK
\$1,299

TROY specifically designed the M5 for the 9mm caliber and the popular Glock® magazine. The M5 is not a simple conversion, it was engineered from the ground up and offers a sharp, clean profile.

The lower receiver's magazine well has been reduced in size and contoured to the angle of the Glock magazine allowing dependable reliability for feeding and extraction. It does not require an adapter.

By utilizing the new TROY TRX3 Revolution rail in carbon fiber and by removing unnecessary items like the forward assist, the upper receiver is incredibly light-weight. The ejection port has been resized for the 9mm cartridge and includes a built-in shell deflector.

Forend	TRX3 Revolution Rail (Patent Pending)
Barrel	16" barrel
Sights	TROY Front and Rear BattleSights
Caliber	9mm
Firing Modes	Safe / Semi-Automatic
Muzzle Device	TROY Medieval® Flash Suppressor

TROY SGM LAMB CARBINE MILITARY ACCURACY

Sergeant Major Kyle E. Lamb (Ret) spent over 21 years with the United States Army, more than 15 years of which were with the U.S. Army Special Operations. Founder and President of Viking Tactics, Inc., Lamb is a highly sought after military and law enforcement trainer. TROY proudly collaborates with VTAC and manufactures their signature BattleSlings and full weapons systems.

The SGM Lamb Carbine in 5.56 features TROY's new M-LOK BattleRail and a Geissele trigger, making the rifle suitable for Close Quarters Battle, mid-range carbine work, and a sound choice for Squad Designated Marksmen.

TROY SDMR RIFLE
 "...ACCURACY...BORDERS ON THE UNBELIEVABLE"
 —Peter G. Kokalis, ShotGun News

Unparalleled engineering and value make the TROY SDMR your first choice black rifle. We took our popular Alpha Rail®, made it lighter, and incorporated Keymod slots for maximum mounting versatility.

Features include TROY's highly sought after BattleAx™ stock, which collapses compactly and securely with an unmatched storage capacity, a Geissele® trigger, 1/7 twist Match Grade barrel, TROY Rear Folding BattleSight™ and Front Folding M4 Tritium BattleSight.

TROY QUICK-ATTACH SUPPRESSORS

TROY's 5.56 and 7.62 Suppressors are constructed of 17-4ph stainless steel for durability and corrosion-resistant properties. Shooters will experience minimal and consistent point-of-impact shift. An advanced manufacturing process resulted in a patented design that ensures the shooter benefits from the strength of a traditional baffle system without any added weight. Colors may vary slightly due to TROY's finishing process which also ensures corrosion resistance. Patents pending. Suppressor kits include quick attach muzzle device.

TROY REAR BATTLESIGHTS

Durability and dead-on accuracy have made TROY Folding BattleSights™ the hands-down choice of Special Ops and tactical users worldwide. Easy to install and to deploy, with no levers or springs to fumble with, TROY Rear BattleSights are machined from hardened aircraft aluminum, finished in MIL-SPEC hardcoat anodizing, and feature either a round or diamond aperture.

Positioned at exact factory height, TROY BattleSights provide a continuous zero and fold to a profile of .460". The zero-canting attachment system was engineered for use on all military and aftermarket receivers. Available in Black and Flat Dark Earth with Tritium upgrades for low light situations.

NOTE: The TROY Rear Fixed Sight is designed to work on same plane rail systems only. Not designed for use with a railed gas block that is higher or lower than the receiver.

M4 FRONT FOLDING M4 FRONT FIXED

TROY FRONT BATTLESIGHTS™ M4 - STYLE

COMPATIBLE WITH OUR DIOPTIC REAR BATTLESIGHTS
TROY's M4 Front BattleSight is easy to install and deploy with no levers or springs to fumble with. No tools required for adjustment; each click adjusts .50 MOA. Machined from hardened aircraft aluminum with stainless steel components and finished in MIL-SPEC hardcoat anodizing. Available in Black and Flat Dark Earth with Tritium upgrades for low light situations.

TROY FRONT BATTLESIGHTS HK - STYLE

COMPATIBLE WITH OUR STANDARD REAR BATTLESIGHTS
Looking for rock solid stability and dead-on accuracy? TROY HK BattleSights get the job done. Machined from hardened aircraft aluminum and finished in MIL-SPEC hardcoat anodizing. Available in Black and Flat Dark Earth with Tritium upgrades for low light situations.

NOTE: Folding and Fixed Sights are designed to work on same-plane rail systems only. They will not work with a railed gas block that is higher or lower than the receiver.

TROY 45 DEGREE OFFSET FOLDING SIGHTS

The TROY 45 Degree Folding BattleSights™ allow for rapid transition and fold compactly to both sides of the rifle when not in use. With an ambidextrous sight base, TROY 45 Degree BattleSights work seamlessly with magnified optics. Easy to install and deploy, these sights position apertures at factory height. A stainless-steel cross-locking system ensures sight remains upright and zeroed under extreme combat conditions.

NOTE: Not available in Tritium.

RAILCALL

TROY ALPHA BATTLE RAILS

AMERICA'S NUMBER ONE RAIL

TROY ALPHA RAILS

TROY's patented TRX® Extreme BattleRails revolutionized rail-based handguards, and the Alpha takes the design to the next level. With its unparalleled strength and durability, TROY's Alpha Rail disperses heat and runs cooler than most other rail systems on the market. Optional, built-in front sights are available in two rail lengths: 11" and 13". Note, however, that the sights are not compatible with rifle length or intermediate gas systems.

Machined from hardened aircraft aluminum and finished in MIL-SPEC hardcoat anodizing, the rails work with a standard AR15/M16 Barrel Nut. Each Alpha Rails comes with 3 Rail Sections which install with ease. (Patent Pending). Available in Black and Flat Dark Earth.

NOTE: Barrel nut not included.

TROY TRX3 REVOLUTION BATTLE RAILS

Newly designed for 2016! TROY proudly introduces the TRX3 Revolution BattleRail®. All Revolution Rails are constructed of carbon fiber and now an all-new patent pending clamping system and octagonal shape provide an even lighter and stronger option for shooters. The TROY TRX3 Revolution Alpha attaches quickly and easily to a standard AR utilizing the existing barrel nut. Run cool, light and strong even after extended firing. Available in Black Carbon Fiber, Black or Flat Dark Earth. Fully compatible with TROY BattleSights™, Squid Grips®, QARS and other TROY accessories. (Patent Pending).

TRX LOWPRO GRIP MOUNT ASSEMBLY **UPDATED PRODUCT**

The TROY LowPro Grip Mount Assembly closes the gap between your rail and grip for a virtually seamless connection.

TROY QARS (QUICK-ATTACH RAIL SECTION) **NEW PRODUCT**

Durable, versatile and easy to install, TROY Rail Sections install solidly and accommodate a full range of accessories. No backer plate and no need to remove the rail, simply two screws and TROY's new mounting hardware! TROY Vertical Grips available for separate purchase. Available in Black only. Patent Pending.

NEW PRODUCT TRX3 BATTLE RAILS

TAKE THE BEST AND MAKE IT BETTER! The TRX3 BattleRail is machined from hardened aircraft aluminum with stainless steel components and is even more light-weight than the Alpha Rail. An all-new (patent pending) clamping system and octagonal shape provide for strength, durability and reliability. The TROY TRX3 Alpha attaches quickly and easily to a standard AR15/M16 utilizing the existing barrel nut. Finished in MIL-SPEC hardcoat anodizing, TRX3 Alpha Rails are available in Black or Flat Dark Earth. Fully compatible with TROY BattleSights™, Squid Grips®, QARS and other TROY accessories.

TROY HK416 CARBON FIBER BATTLE RAILS

The all new TROY HK416 BattleRail, based on the design of the Revolution M-LOK, is constructed of carbon fiber for the lightest weight rail upgrade available for the HK416. The BattleRail allows for the addition of smaller M-LOK BattleRail Sections where needed for total modularity and also accepts the all new Squid Grips® for M-LOK.

Available in 9.215" and 13.155" lengths, the HK416 BattleRail installs easily, using the same mounting hardware as the original factory hand guard.

TROY SDMR BATTLE RAILS®

TROY M-LOK™ BATTLE RAILS®

TROY Squid Grips
Now in M-LOK, Pg20

INTEGRATED QD MOUNTS

TROY's SDMR BattleRail installs quickly and easily. The streamlined one-piece design is exceptionally lightweight and sleek. With its series of KeyMod, accessory mounting is simple and reliable: they can't loosen or fall off. Machined from hardened aircraft aluminum with stainless steel components and finished in MIL-SPEC hardcoat anodizing. Available in 10", 11", 13" and 15" lengths. Attach TROY BattleSights™ (available for separate purchase) to the top Picatinny Rail. (Patented Clamping System.) Available in Black and Flat Dark Earth.

TROY KEYMOD BATTLE RAIL SECTIONS

TROY KeyMod BattleRail Sections install easily and securely on most KeyMod type handguards to accommodate a full range of accessories. **2016 versions boast a much lower profile due to the lack of a typical backer plate.** Available in Black.

TROY/VTAC® ALPHA BATTLE RAILS®

The VTAC Alpha Battle Rail is TROY's progression of the extremely popular VTAC Extreme rail designed for SGM Kyle Lamb (Ret) of Viking Tactics, Inc. Kyle is known worldwide as one of the best tactical shooters and trainers in the industry. The VTAC Alpha Rail is a one-piece, free-floating modular rail for M4 & M16 systems. It features slotted cooling holes for enhanced heat dispersion. The rail is easy to install, utilizes the standard factory barrel nut and features an uninterrupted top Picatinny Rail that allows the mounting of optics and backup iron sights. This system also includes three smaller rail sections that can be added to the rail where desired for unlimited mounting options. Available in Black and Flat Dark Earth. (Patented Clamping System.)

NEW PRODUCT **INTRODUCING TROY AK-47 BATTLERAILS®**
IN KEYMOD AND M-LOK™

TROY AK-47 extended handguards provide a longer gripping platform for enhanced accuracy. Cooling holes prevent the rail from over heating, even after extended firing. Machined from hardened aircraft aluminum with stainless steel components and finished in MIL-SPEC hardcoat anodizing, they replace factory handguards easily with no gunsmithing required.

Handguards will fit stamped receiver AKs (not milled). Will work with some Bulgarian, Romanian and Egyptian lower handguard retainers. Others AKs may need minor modification to fit properly.

The Top Railed Gas Tube will fit Russian, Romanian, Bulgarian, Chinese, US and other AKs (stamped and milled) with a standard length gas tube. Attach optics and accessories to the 5" top Picatinny Rail. No special tools are needed for installation.

Top Rail offers a 5" Picatinny Rail section.

The reinforced feed lips and anti-tilt follower on TROY BattleMags will not spread when kept loaded for extended periods of time. No clamps needed!

The reinforced feed lips on TROY BattleMags afford superior, no-fail performance in strenuous combat or competition conditions.

The anti-tilt polymer follower in TROY BattleMags provides even support of the round stack for smooth feeding, fewer jams and misfeeds.

TROY BattleMags feature an aggressive scale pattern, providing the ultimate grip in dirty or wet conditions

TROY BattleMags have a slim-profile body allowing for an excellent grasp, easy pouch release, and faster reloads. BattleMags drop free when used with a Mil-Spec lower (bolt locked back) for faster, smoother reloads.

The flush, bolstered shock absorbing floor plate on TROY BattleMags eliminates catching on other magazines when stored in rigs or pouches.

TROY BATTLEMAGS ARE ENGINEERED TO FUNCTION FLAWLESSLY WITH ALL M4, M16/AR15, HK416® AND FN SCAR® RIFLES AND CARBINES.

The distinct ledge on the spine of TROY BattleMags prevents over-insertion in the mag well.

TROY BattleMags are made from a proprietary military-grade, chemical, biological and impact resistant polymer and are virtually indestructible!

An optional protruding Pull-Tab is provided with each TROY BattleMag and can be installed or removed in seconds. This aids in extracting the mag from a tight pouch.

TROY M7A1 PDW STOCK KIT

RUGGED, RELIABLE AND COMPACT.

Beware of imitations and knock-offs. The TROY PDW stock is superior in design and function.

6 POSITIONS FOR UP TO 3" OF EXTENSION // PROPRIETARY BUFFER & BOLT CARRIER GROUP

The TROY M7A1 PDW Stock Kit is the anticipated retractable stock made to elevate 5.56 carbines, making them compact, measuring 3" shorter than traditional carbine stocks. Utilizing a proprietary, patented spring, bolt carrier system and heavy duty latch assembly, the refined design makes the M7A1 PDW Stock Kit rugged, reliable and compact. The rods of the TROY PDW stock allow full access to operating features with a gloved hand, even when the stock is completely retracted. Depress a lever on the underside of the stock with a thumb to extend the stock in one fluid motion. TROY's stock has 6 positions of adjustment and built-in sling mounts, making it the total package. Stock kit includes PDW Stock, spring, bolt and buffer system.

Available in Black and Flat Dark Earth.

Available for .223 / 5.56 and 300 AAC Blackout

TROY M-LOK Rail featuring our new M-LOK squid grips, 3.3" Low Profile Rail section and M4 Folding Battle Sight.

NEW PRODUCT
TROY SQUID GRIP M-LOK

TROY's patented, revolutionary, rail insert is now available for M-LOK. Its composition of proprietary advanced rubber makes it heat resistant and extremely durable. The squid grips insert directly into the cooling holes, and may be cut to form any length or inserted end to end for longer lengths. Includes 6 rows of 3 Sections.

TROY SQUID GRIP®

This patented revolutionary rail insert is made specifically for the Alpha, Delta, TRX, TRX3 Alpha Rail and the T22 Sport Chassis. Its composition of proprietary advanced rubber makes it heat resistant and extremely durable. The 6-hole squid grip inserts directly into the cooling holes, and may be cut to form any length or inserted end to end for longer lengths. Will not fit the TROY/VTAC, KeyMod and M-LOK rail systems. Available in Black and Flat Dark Earth.

CONTROL GRIP ▶

Everything you want and need is in this ultimate pistol grip. Featuring a refined angle, The TROY Control Grip sets your hand close to the receiver, leading your arm and shoulder into a proper shooting position. The aggressive scale pattern keeps the shooter's hand in place while the locking door creates a convenient storage compartment. Fitting all M4, M16/AR15 and FN SCAR rifles with the superior strength of rugged military-grade polymer, the TROY Control Grip is the perfect solution for close quarters battle. Shown in Flat Dark Earth. Also Available in Black and Coyote Tan.

MODULAR COMBAT GRIP

Don't lose your grip when things get dirty. TROY Modular Combat Grip offers versatility, unmatched durability and outstanding ergonomics in a grip that complements all Picatinny Rail systems. Grip converts easily into two sizes: 4 5/8" when completely assembled and 3 1/4" when in short ("stubby") mode making it the perfect accessory. Machined from hardened aircraft aluminum and finished in MIL-SPEC hardcoat anodizing. Shown in Flat Dark Earth. Also available in Black. Modular Combat Grip thumb screw for assembly is sold separately.

CONVERT A STANDARD AR INTO A STATE-OF-THE-ART CQB PLATFORM

TROY's M7 & M7A1 Packages and Kits come complete with our world-famous folding sights: a Diamond Rear and a Tritium M4 Front. Experience why TROY Sights have been referred to as the Gold Standard in Folding Back-Up Iron Sights.

Utilizing a proprietary, patented spring, buffer and bolt carrier system and heavy duty latch assembly, the refined design makes the M7A1 Packages and Kits rugged, reliable and compact.

LOWER RECEIVER FOR DISPLAY ONLY.

TROY M7A1 UPGRADE KITS

THE ULTIMATE CQB UPGRADE FOR YOUR M4/M16

The retractable stock and short barreled design on TROY M7A1 Upgrade Kits make them the perfect choice for tactical users, law enforcement, and personal security professionals alike. Utilizing a proprietary, patent pending spring, bolt and buffer system, and heavy duty latch assembly, the refined design makes the TROY system rugged, reliable and compact. The 7" PDW features an Alpha Rail® and a 5.56 Claymore® Muzzle Device, while the 10" CQB and 14.5" Carbine lengths sport the M-LOK™ BattleRail® with a 5.56 3-Prong Flash Hider with QA Suppressor Mount. All include TROY CQB Vertical Grip, TROY Rear Folding and M4 Front Folding BattleSights™. Available in Black and Tan.

TROY's Claymore Muzzle Brake® affords a very low dust signature, without a swirling effect. Directs muzzle blast and sound forward, away from the shooter, and additionally, can work as an improvised breaching device. TROY 3-Prong Flash Hider provides enhanced control and works with TROY Quick Attach Suppressors, shown on Firearms Pg 16.

5.56 3-PRONG W/ MOUNT
5.56 Claymore Muzzle Device

As sleek as they are strong, TROY BattleMags outperform all other polymer magazines on the market. The bolstered floorplate is set flush so that it will not catch on other magazines when pulled from a pouch.

TROY M7 AND M7A1 DEPLOYMENT PACKAGE

Ultra-short M4s are ideal for covert operations, protective details and vehicle assignments. To that end, the M7 and M7A1 PDW Deployment Packages were developed. The TROY M7 Deployment Package comes with M7 Upper Receiver, BattleAx™ Stock and Standard Bolt Carrier. M7A1 Deployment Package comes with the M7 Upper Receiver and includes the TROY PDW Stock Kit with proprietary, patented spring, buffer and bolt carrier system and heavy duty latch assembly. Both packages include CQB Vertical Grip, OEM M4 Receiver End Plate and Nut, Single Point BattleSling®, Seven BattleMags®, stainless steel QD Sling Attachment with Swivel, and a Custom-Fitted Pelican® Deployment Case - all the parts needed to convert a standard M16/AR-15 into the ultimate Personal Defense Weapon. The M7, M7A1 Deployment Packages and the M7 Receiver only include TROY QARS BattleRail® Sections.

TROY M14 UPGRADES

M14 S.A.S.S. CHASSIS™ PACKAGE

INCLUDES STOCK, SIGHTS, GRIP, CHASSIS

RIFLE NOT INCLUDED

TROY's M14 S.A.S.S. improves accuracy and allows for faster follow-up shots due to improved recoil management. Package includes the TROY M14 Modular Chassis, M16A1 Sling Mount, all mounting hardware, TROY Front and Rear Folding BattleSights™, Built-in QD Swivel Attachments, Adjustable Sniper Stock and A2 Rear Grip. Will fit USGI M14s and most commercial semi-automatic variants without a rear lug. Machined from hardened aircraft aluminum and finished in MIL-SPEC hardcoat anodizing. Available in Black, Flat Dark Earth.

RIFLE NOT INCLUDED

M14 RAIL

Compatible with all factory wood and fiberglass stock systems, TROY's M14 Rail offers a stable optics mounting platform. Three MIL-STD Picatinny Rails provide versatile accessory interfacing. Installs easily with no special tools. Machined from hardened aircraft aluminum with stainless steel components and finished in MIL-SPEC hardcoat anodizing. Available in Black or Flat Dark Earth.

M14 CHASSIS

Suit up your M14. Power your M14 to the tactical level with TROY's M14 Chassis. Features a full quad MIL-STD Picatinny Rail and continuous top rail. Accepts all M16/M4 pistol grips, stocks, sights and accessories. Manufactured from hardened aircraft aluminum with stainless steel components and finished in MIL-SPEC hardcoat anodizing. Available in Black and Flat Dark Earth.

TROY 10/22 UPGRADES

T22 CHASSIS

Ultra lightweight and modular, TROY T22 Chassis are the ultimate low-cost training solution for military and law enforcement. Built on the Ruger 10-22, the T22 mimics all the features of the standard M4 but utilizes lower cost 22LR ammunition.

The Sport T22 Chassis features a built-in legendary TROY spring-loaded M4 BattleSight™, pistol grip, adjustable stock and a free-floating barrel. TROY T22 Chassis Systems are compatible with all standard and bull barrels up to .926" diameter. Patent Pending. Available in Black only.

T-22 SPORT

A complete internally suppressed rifle built off the famous and reliable Ruger 10-22 and using TROY's new T22 chassis system. A stainless, cold hammer-forged barrel and integrated TROY suppressor make this rifle the perfect application for covert and night assignments where total stealth and concealment are required, but the firepower of a full-fledged assault rifle is not. All NFA rules apply. Patent Pending. Available in Black only.

We know weapon retention systems matter.

If your mission includes tactical maneuvers, firearms competition or a day in the field, all TROY BattleSlings are designed for comfort, stability and strength. Available in one-, two-, and three-point variations with features such as MIL-SPEC webbing and infrared inhibitor buckles.

SLINGS & GEAR

▶ VTAC® WIDE PADDED SLING

The VTAC Wide Padded BattleSling has the same great features as the original VTAC sling with added comfort for heavier rifles. It is instantly adjustable to improve your shooting position, allows shooting from weak side shoulder, secures the carbine during handgun transitions, and allows hands-free movement in difficult surroundings.

▶ VTAC WIDE NON-PADDED SLING

A tight sling will enhance any shooting position for rifles with collapsible stocks. The Viking Tactics BattleSling isn't just a carry strap; its full range of adjustability will enhance retention when you need your hands free, and you won't have to take a break from the action to make a sling adjustment.

▶ VTAC BUNGEE SLING

The VTAC Bungee Sling gives the operator a lightweight alternative to the standard sling. With the addition of shoulder bungee material, the VTAC Bungee Sling allows the shooter to maintain an extremely tight sling while still being able to get in and out of shooting positions.

▶ TROY FIELD SLING

You need to cover some dangerous ground. You need your weapon at-the-ready. You need TROY's Field Sling. The sling is highly controllable: rubber webbing inside the sling holds its position and won't allow the sling to slide.

▶ VTAC HUNTING SLINGS

Padded for extra comfort and manufactured to exceed the exacting standards of reliability and flexibility of all Viking Tactics products.

NEW PRODUCT

▶ TROY/VTAC WIDE PADDED SLING

The TROY/VTAC Wide Padded Sling adds comfort for heavier firearms with additional TROY upgrades including all metal loops instead of plastic, enhanced rubber coated pull strap and military grade nylon wraps to cover loops. It features a shoulder strap with closed cell foam for increased comfort. The forward adjustable portion of the sling remains the same as the original VTAC sling, giving you quick, easy adjustments from any position.

WAY OF THE GUN® PROCTOR SLING

Effective, durable and strong. The Way of the Gun two-point adjustable gun sling was designed to meet operational needs efficiently with minimal bulk and without the need for attaching hardware. Attaches to the rifle using the supplied 550 cord loops, or alternately, can be attached using any sling loop or QD mount. Fully adjustable. Excess webbing stores on itself, eliminating the need to tape up excess. Shown in MultiCam® Also available in Black, Marpat Brown, Ranger Green and Multi-Cam.

PROCTOR REAR BAG

The Proctor Rear Bag is the perfect size to support the rear of a precision rifle when using a bipod or on the front of the rifle when shooting off rocks or other uneven surfaces. The bag works really well to fill in gaps and get stability for long range shooting with a bolt gun or carbine. Its compact size allows for easy storage in a shooter's pocket, or, use the included 550 cord loop to snap link it to a backpack or rifle. Filled with small plastic beads, the Proctor Rear Bag is light and pliable.

TROY GAS BLOCKS

0.750 LOW PROFILE GAS BLOCK:

Low profile design allows for clearance of most aftermarket rails that require a smaller gas block. Fits tightly to the barrel using two set screws.

0.875 GAS BLOCK:

Made specifically for bull barrel rifles that have a .875 gas block seat and Armalite .308 heavy barrel and other calibers.

0.936 GAS BLOCK:

Made specifically for bull barrel rifles that have a .936 gas block seat. Works on .223, 5.56 and .308 Bull Barrels and other calibers.

2" .750 LOW PROFILE GAS BLOCK:

Made to cover area under fixed sight gas block and hides taper pin holes.
