Pipe Control

The new boss of the Firearms and Organized Crime Squad has [revealed that at least 10% of firearms seized by police in NSW are homemade](#).

“Supt Plotecki said there was anecdotal evidence that outlaw motorcycle gangs were targeting people who have the skills to make weapons. – Earlier this year a Hells Angel prospect was caught with a homemade Uzi that police believe was a prototype he was showing his prospective employers to impress them.”

It’s funny to see that in the same article the anti-gun group ‘Gun Control Australia’ make the claim that “All guns start out legal before they become illegal (via theft or rogue dealers)”. Certainly not [standard tubing submachine guns](#) made using plans readily available on the Internet, that’s for sure.

[Test firing video](#)

A .22lr zip gun disguised as a lighter seized during a club raid.

An improvised double barrel shotgun pistol with pizza-wheel hand brace, presumably for 'tenderizing'.

A single-shot knuckle duster zip gun.

More images of homemade submachine guns previously seized in Australia can be found [here](#).
