

i-PROTECT

A step ahead in public security.

From over 500 years Beretta delivers the best solutions for security operators worldwide. Our mission is to ensure people a better life by enabling police forces to operate safely and I-Protect is our breakthrough solution for the police and law enforcement community.

When it comes to an emergency you must be fast, accurate and effective: no matter where you are, now I-Protect is around you. A network of integrated sensors provides the Operation Center with a real time situation awareness, including operators vital functions and weapons status.

I-Protect dedicated software records and manages automatic alerts, enhancing the decision making process. The result is an improved safety framework for operators on the field, allowing them to focus on their most important mission: serve and protect.

The security of citizens is a priority of every civil society. Thanks to technology we have done a lot, but there is still a lot to do. Beretta I-Protect: a step ahead in public security.

I-PROTECT IS AN IMPROVED SAFETY FRAMEWORK FOR OPERATORS ON THE FIELD
