

PX4 Storm ⁱ

Empowering Individual Protection

In the street your life depends on your comrades and communication is essential. However, in a split-second attack, call communication is not always possible: don't worry, from now on your PX4ⁱ will do it for you. The status of your gun corresponds to a specific level of threat. PX4ⁱ continuously tracks and records your pistol status, sharing this information in real time with the Operation Center and other patrols. The result is an enhanced situational awareness that provides a dramatic reduction of the time to decision in crisis response.

Until today your pistol has always been on your side. Now PX4ⁱ stays on your back.

**Pistol status monitoring.
Battery wireless charge.
Predictive maintenance management.**

BZEROⁱ

Empowering Individual Protection

Health status monitoring and body position are key factors to assess the condition of each operator on the field. BZEROⁱ is the breakthrough underwear with integrated sensors that allows to detect and track all these data and to share them in real time with the Operative Center. The result is an enhanced situational awareness that provides a dramatic reduction of the time to decision in crisis response.

BZEROⁱ : now your inner layer is your first defence.

**Health status tracking.
Body position monitoring.**

BZEROⁱ also feature the WarmUP and Deocell® technologies for the highest level of comfort on the field.

BZEROⁱ is also available in flame retardant version.
